- _____ XXXXX 1. Clean Lav "A" Air Vent.
- | A. Remove toilet shroud.
 - | (1) Open the toilet shroud latches at the bottom of the toilet shroud (turn the latches away from the toilet to open them).
 - | (2) Carefully pull out the bottom edge of the toilet shroud.
 - | (3) Move the toilet shroud down until the top edge is disengaged from the trim strip on the lavatory wall.
 - | B. Clean lavatory air vent screen with a vacuum cleaner.
 - | C. Reinstall toilet shroud.
 - | (1) Engage the top edge of the toilet shroud with the trim strip of the lavatory wall.
 - | (2) Carefully push the bottom edge of the toilet shroud in its position.
 - | (3) Turn the toilet shroud latches to close the toilet shroud.
2. Repeat the procedures above for the following Lavs.
- _____ XXXXX A. Lav "B"
- _____ XXXXX B. Lav "C"
- |_____ XXXXX C. Lav "D"
- |_____ XXXXX D. Lav "P"
