Additional Zones: 740, 743, 744, 745

- \_\_\_\_\_ 1. Remove Right Main Landing Gear per A.M.M. 32-11-01, for  
 shop disassembly, inspection and restoration.

NOTE: The main landing gear axle nuts should be considered part of the gear and shipped with the gear assembly for all scheduled and nonscheduled overhauls. This recommendation is to allow the overhaul facility to inspect the nuts for Blue Print conformity.

- \_\_\_\_\_ 2. (RII) Install Right Main Landing Gear per A.M.M. 32-11-01.

- \_\_\_\_\_ 3. Remove Left Main Landing Gear per A.M.M. 32-11-01, for  
 shop disassembly, inspection and restoration.

NOTE: The main landing gear axle nuts should be considered part of the gear and shipped with the gear assembly for all scheduled and nonscheduled overhauls. This recommendation is to allow the overhaul facility to inspect the nuts for Blue Print conformity.

- \_\_\_\_\_ 4. (RII) Install Left Main Landing Gear per A.M.M. 32-11-01.
